

## **Mission & Values**

### **Strapline**

Sharing God's restoring love with women in Leicester's sex industry.

### **Mission Statement**

We aim to provide pastoral care, practical support, positive life skills and access to relevant services to women working in the sex industry in Leicester. We respect every woman's individual choices, but should any woman choose to exit the sex industry we will support her to make informed life choices and on-going care.

We seek to work in partnership with other organisations and statutory agencies in Leicester to ensure the best possible services and to address key issues surrounding prostitution in the city.

Our work is underpinned by our Christian faith which shapes our policies and leads us to seek excellence in all aspects of our provision.

We embrace the diversity of Leicester and aim to ensure all women, regardless of their culture, background or faith have equal opportunity to access services.

### **Core Values - Renewal**

<b>Respect</b>	We are committed to the women we serve and their wellbeing is central to our work
<b>Equal access</b>	We commit to serving women in the sex industry on a long term basis, irrespective of their individual choices. Provision of our services is in no way dependent on their response to our beliefs.
<b>New opportunities</b>	We encourage women to make informed choices and take up new opportunities. We believe all women should have the chance to progress, achieve, and thrive.
<b>Encountering God</b>	We seek to show the love of God in everything we do. As a team, we value one another and regular prayer is part of our organisational practice.
<b>Worth</b>	We aim to prevent the isolation of women working in the sex industry and to facilitate their integration into wider community. We believe every person is created to live in community –to have friendship, support and belonging.

**Acceptance**

We commit to listening compassionately to all who need time to share their story. We welcome questions and are open to discussing issues of life and faith in confidence.

**Loving life**

We believe that fullness of life, for ourselves and others, comes through the healing grace of the Lord Jesus Christ. We offer prayer to others as we believe that God can meet their needs. However, we accept that not everyone will want to receive prayer.
